

---

# **Introduction to the Army Environmental Management System: Day Two**

---

Welcome Back

# Exercise 3

---

## ■ **Develop objectives & targets:**

1. Develop a mission-focused objectives for an Army installation or MACOM
2. Develop  $\geq 2$  targets for each objective

## ■ **How:**

- 25 minutes to develop objective, targets, & rationale
- 2 minute report to larger group
- Break into groups of 4
- Person with last name third in alphabet is facilitator

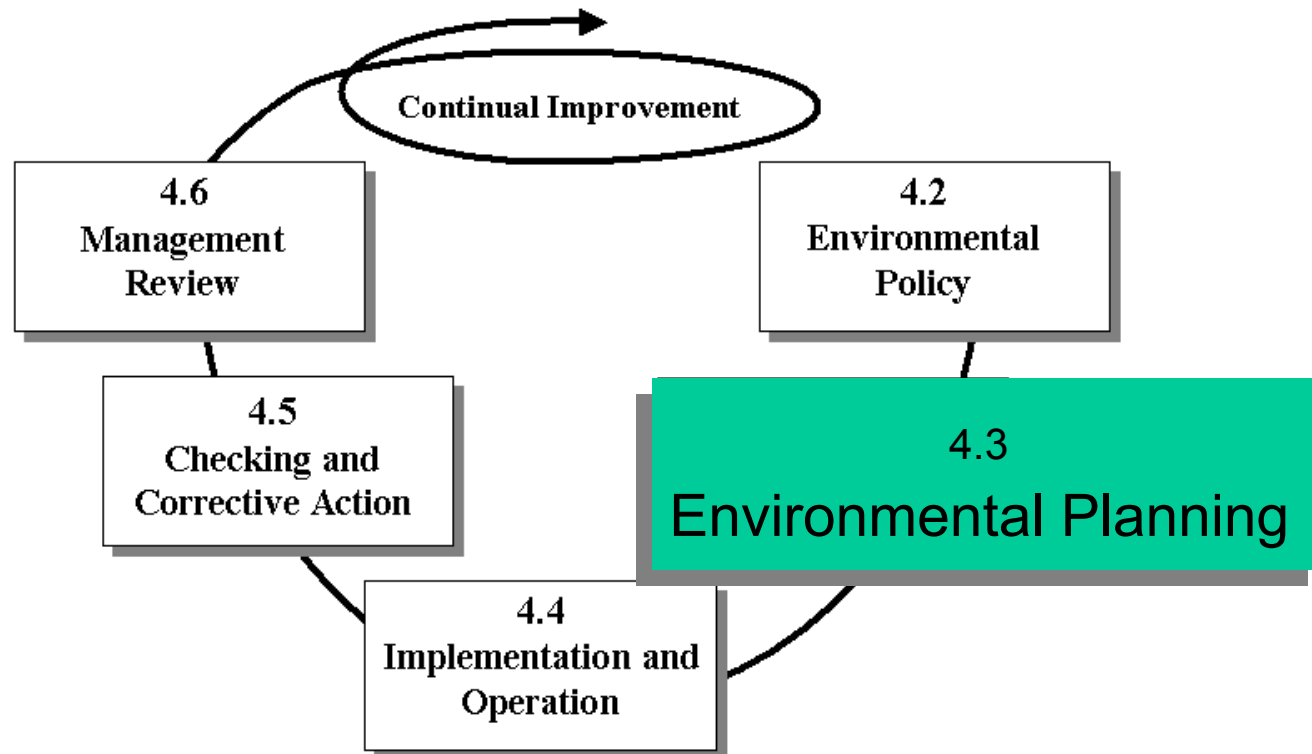

## Module 7: Environmental Management Programs

- What is required by ISO 14001?
- Why is it important?
- What are key issues for Army?

# Environmental Management Programs

---

# Requirements

## Environmental Management Programme(s):

- “The organization shall establish and maintain (a) **programme(s)** for achieving its **objectives & targets**. It shall include:
  - a) Designation of **responsibility** for achieving objectives and targets at each relevant function and level of the organization;
  - b) The **means and timeframe** by which they are to be achieved.
- If a project relates to **new developments** and new or modified activities, products, or services, programme(s) shall be **amended** where relevant to ensure that environmental management applies to such projects.” (ISO14001Sec. 4.3.4)

# Key Concepts

---

- **Documentation is in plan vs procedures**
  
- **EMPs are a roadmap**
  - Objectives & targets are the desired ends
  - EMPs are the means to those ends
  - Who, when, & how
  
- **Keep up to date when activities change**
  - Consider building in periodic update
  - With fast-paced operations, change can build up quickly

# Army Focus

## ■ Not glamorous but very useful

- Readability really helps
- Try to keep short and clear
- Try to be specific – change is ok

Congratulations.  
You have completed Module 7.
